Airport Implementation Plan

Project Elements

1. Expand existing Terminal 2 West with 10 new jet gates.
2. Construct new aircraft parking and replacement Remain-Over-Night (RON) aircraft parking apron.
3. Construct new apron and aircraft taxilane.
5. Relocate and reconfigure SAN Park Pacific Highway.

...and more details on other projects such as:

- Construct new General Aviation facilities including access, terminal/hangars and apron on 12.4 acres.
- Demolish the existing general aviation facilities.
- Reconstruct Taxiway C, and construct new apron hold pads and new Taxiway east of Taxiway D.
